DESCRIPTION

The Aeropilot Legend 600 is a modern high-wing light sport aircraft designed to deliver outstanding visibility, efficient cross-country performance, and comfortable everyday flying. Combining modern composite construction with proven Rotax power, the Legend 600 offers private owners, flight schools, and recreational pilots an aircraft that feels refined, economical, and enjoyable to fly.

Designed and manufactured by Aeropilot, the Legend 600 emphasizes practical utility without sacrificing style. Its spacious cabin, excellent handling characteristics, and impressive short-field capability make it equally comfortable on weekend adventures, flight training, and personal transportation.

For aviation buyers searching for an Aeropilot Legend 600 for sale, light sport aircraft (LSA), Rotax-powered aircraft, modern high-wing airplane, cross-country LSA, European light aircraft, or efficient personal aircraft, the Aeropilot Legend 600 represents one of the most capable aircraft in today's light sport category.

Quick Facts

Details

Aircraft type

High-wing Light Sport Aircraft (LSA)

Model focus

Legend 600

Manufacturer

Aeropilot

First flight

2014

Engine

1 × Rotax 912 ULS

Power

100 hp

Crew

1 pilot

Passenger capacity

1 passenger

Landing gear

Fixed tricycle landing gear

Core appeal

Modern LSA, economical operation, panoramic visibility, comfortable touring

Key Takeaway: The Aeropilot Legend 600 is a modern European light sport aircraft that combines low operating costs, exceptional visibility, comfortable ergonomics, and dependable Rotax performance into a highly capable recreational and cross-country platform.

Powerplant, Systems & Technical Highlights

The Aeropilot Legend 600 is powered by the renowned Rotax 912 series engine producing approximately 100 horsepower. Known worldwide for fuel efficiency, reliability, and low maintenance requirements, the Rotax engine has become one of the defining powerplants in the light sport aircraft market.

The aircraft's modern composite construction keeps weight low while improving corrosion resistance and aerodynamic efficiency. Large control surfaces, balanced handling, and excellent visibility make the Legend 600 approachable for newer pilots while remaining rewarding for experienced owners.

Technical highlights include:

- Powerplant: 1 × Rotax 912 ULS
- Power output: 100 hp
- Aircraft category: Light Sport Aircraft (LSA)
- High-wing configuration
- Composite airframe construction
- Fixed tricycle landing gear
- Side-by-side seating
- Modern glass cockpit compatibility
- Large baggage compartment
- Efficient cruise performance with low fuel consumption

Typical performance (configuration dependent):

- Cruise speed: Approx. 105–120 kt
- Maximum speed: Approx. 135 kt
- Range: Approx. 600–700 nm
- Fuel consumption: Approximately 15–20 L/hr
- Maximum takeoff weight: 600 kg (LSA category configuration)

What makes the Aeropilot Legend 600 technically attractive? It combines proven Rotax reliability, excellent fuel economy, modern composite engineering, spacious cabin comfort, and forgiving flight characteristics in an aircraft designed for everyday ownership.

Buyer Perspective

Strengths

Conditions

Modern Rotax power

Performance varies depending on engine and avionics configuration

Owners seeking dependable, fuel-efficient flying

Low operating costs

Payload planning is important with two occupants and baggage

Recreational pilots and private owners

Excellent visibility

Cruise speed is lower than larger certified touring aircraft

Scenic flights, cross-country touring, and photography

Spacious, comfortable cabin

Limited to two seats

Weekend adventures and personal travel

Short-field capability

Performance depends on runway elevation and loading

Grass strips and regional airfields

Modern composite construction

Buyers should review maintenance history and airframe condition

Pilots looking for low-maintenance ownership

Glass cockpit compatibility

Avionics configuration varies by aircraft

Flight schools and modern LSA operators

For buyers asking, "Is the Aeropilot Legend 600 a good personal aircraft?" the answer is yes. It offers one of the best combinations of efficiency, comfort, visibility, and modern design in the Light Sport category, making it an excellent choice for recreational flying, flight training, and economical cross-country travel.

Exterior & Cockpit

The Aeropilot Legend 600 has a clean, contemporary appearance that immediately communicates modern European aircraft design. Its streamlined fuselage, high wing, broad cabin glazing, and refined aerodynamic surfaces give it an elegant yet purposeful profile.

Unlike traditional utility high-wing aircraft, the Legend 600 features smooth composite lines, modern wheel fairings, and an attractive cabin that feels significantly more refined than many aircraft in its class.

Exterior highlights include:

- Modern composite fuselage
- High-wing configuration with panoramic visibility
- Aerodynamic winglets and clean wing design
- Fixed tricycle landing gear
- Large cabin doors for easy entry
- Spacious baggage compartment
- Attractive modern paint schemes
- Excellent visibility for sightseeing and training

Inside, the Legend 600 offers a cabin that feels surprisingly spacious for a light sport aircraft. Excellent headroom, wide seating, and expansive glazing create an open environment that reduces fatigue during longer flights.

Cockpit highlights include:

- Side-by-side seating
- Modern glass cockpit compatibility

- Ergonomic dual control yokes
- Carbon-fiber style instrument panel
- Excellent outside visibility
- Comfortable seating with generous shoulder room
- Well-positioned engine and systems controls
- Spacious cockpit suitable for longer cross-country flights

The cockpit of the Aeropilot Legend 600 feels modern, practical, and confidence inspiring. Large windows, intuitive controls, and an uncluttered instrument panel provide an enjoyable flying environment that appeals equally to student pilots and experienced aircraft owners.

The Perfect Airplane For

The Aeropilot Legend 600 is perfect for buyers seeking an efficient, modern, and enjoyable aircraft for personal flying. It appeals to private owners, weekend aviators, flight schools, recreational pilots, and anyone looking for economical aircraft ownership without sacrificing comfort or capability.

Who is the Aeropilot Legend 600 best suited for? It is ideal for pilots who value low operating costs, excellent visibility, dependable Rotax power, and comfortable cross-country capability within the Light Sport Aircraft category.

The Aeropilot Legend 600 is ideal for:

- Private recreational pilots
- First-time aircraft owners
- Flight schools
- Cross-country touring enthusiasts
- Weekend adventure flying
- Scenic sightseeing operations
- Pilots transitioning into Light Sport Aircraft
- Owners seeking economical aircraft operation

The Aeropilot Legend 600 is less suited to buyers requiring high payload capacity, four-seat utility, or high-performance IFR operations. Its greatest strengths are efficiency, simplicity, visibility, and enjoyable day-to-day flying.

Buyer Type

Fit Level

Why It Works

Private recreational owner

Excellent

Low operating costs and enjoyable flying characteristics

Flight school

Excellent

Forgiving handling and economical operation

Cross-country touring pilot

Strong

Comfortable cabin with efficient cruise performance

First-time aircraft buyer

Excellent

Modern systems and approachable ownership costs

Utility operator

Moderate

Best suited for light recreational missions rather than heavy utility work

High-performance aircraft buyer

Low

Designed for efficiency and accessibility rather than speed

Potential buyer profile:

- You want a modern Light Sport Aircraft
- You appreciate efficient Rotax-powered performance
- You value panoramic visibility and comfortable ergonomics
- You enjoy recreational and cross-country flying
- You prefer low operating and maintenance costs
- You want a spacious two-seat cabin
- You appreciate modern composite aircraft construction
- You are looking for dependable, enjoyable aircraft ownership with excellent everyday usability

In short, the Aeropilot Legend 600 is the perfect airplane for a buyer seeking an efficient, modern, and versatile Light Sport Aircraft. It combines contemporary European design, dependable Rotax performance, excellent visibility, and economical ownership into an aircraft that makes every flight enjoyable—whether it's a local evening flight, a weekend getaway, or a relaxed cross-country adventure.

IMPORTANT INFORMATION

Closing times can change

The closing time shown is indicative. Auctions may be extended automatically when bids arrive close to the deadline, and CollectAirs may reschedule, pause or withdraw a lot at any time. The time shown on the website governs.

Prices are indicative

Starting prices, current bids and any reserve are subject to change and may be corrected, revised or withdrawn. Where a lot carries a reserve, the amount is confidential and the lot will not sell below it. Figures here exclude applicable fees, taxes, duties, transport and registration costs.

No offer and no contract

This document is provided for information only. It is not an offer, a valuation, an appraisal, or an invitation to treat, and it forms no part of any contract. Bidding and sale are governed solely by the CollectAirs Terms and Conditions in force at the time of the auction.

Condition and airworthiness

Aircraft are sold as they stand. Descriptions, specifications, hours, dates and maintenance status are supplied by the seller and, while CollectAirs curates and verifies listings, they are not warranted as complete or accurate. Buyers are expected to carry out their own inspection, records review and pre-purchase survey before bidding.

Export, registration and compliance

Deregistration, export, import, customs, tax and re-registration are the buyer's responsibility, as is confirming that the aircraft can be lawfully imported and operated in the intended jurisdiction. Requirements vary by country and can affect both cost and timescale.

Photography and written content

Photographs are supplied by the seller and may have been edited for exposure, colour, straightening or the removal of background distractions, in some cases with AI-assisted tools. Parts of the written description and specification summaries may also have been drafted or edited with AI assistance for clarity and consistency. Such enhancements are made to present the aircraft clearly and are not intended to conceal, add or alter any physical feature, damage or defect. Photographs are illustrative, treat the aircraft itself, and its records, as the only authority on condition.

Seller identity

Seller names are shown in the partially masked form used across the platform. Full counterparty details are exchanged through CollectAirs once an auction concludes.
