DESCRIPTION

The Mudry CAP 232 is regarded as one of the most respected unlimited-category aerobatic aircraft ever produced, engineered for pilots who demand precision, structural integrity, and uncompromising performance. Developed from the legendary CAP lineage, the CAP 232 combines lightweight composite construction with extraordinary control authority, resulting in an aircraft celebrated worldwide for its agility, energy retention, and responsive handling characteristics.

This particular example presents as a carefully maintained and thoughtfully operated aircraft, offering a rare opportunity to acquire a true aerobatic thoroughbred with enduring pedigree and proven capability.

Powerplant, Systems & Technical Highlights

At the heart of the CAP 232 is the renowned Lycoming AEIO-540 aerobatic engine, delivering approximately 300 horsepower and trusted worldwide for sustained high-performance aerobatic operation.

Combined with the aircraft's lightweight composite structure and highly responsive controls, the CAP 232 delivers exceptional roll performance, rapid throttle response, and impressive vertical capability. Its carbon-composite wing construction contributes to both structural strength and remarkable energy management throughout demanding aerobatic sequences.

Exterior & Cockpit

Purpose-built for competition aerobatics, the CAP 232 features a compact, aggressive design with clean aerodynamic lines and unmistakable presence. This example reflects attentive ownership and professional care, presenting as a serious aerobatic machine both visually and mechanically.

Inside, the cockpit is focused entirely around pilot control and visibility. The seating position, harmonized controls, and expansive canopy create an immersive flying experience that places the pilot in direct connection with the aircraft.

Maintenance & Records

This CAP 232 is described as professionally maintained and regularly inspected, with clear attention given to structural integrity, engine condition, and overall operational readiness.

Consistent maintenance and transparent documentation remain essential aspects of ownership, reinforcing confidence in the aircraft's condition, history, and continued airworthiness.

The Perfect Airplane For

The CAP 232 is ideally suited for experienced pilots seeking a genuine unlimited-category aerobatic aircraft with proven competition heritage and legendary handling characteristics. Whether intended for advanced aerobatic training, airshow flying, or passionate ownership, this aircraft delivers a uniquely rewarding experience.

For pilots who value precision engineering, uncompromising performance, and the artistry of aerobatic flight, the CAP 232 represents one of the finest expressions of modern aerobatic aviation.

IMPORTANT INFORMATION

Closing times can change

The closing time shown is indicative. Auctions may be extended automatically when bids arrive close to the deadline, and CollectAirs may reschedule, pause or withdraw a lot at any time. The time shown on the website governs.

Prices are indicative

Starting prices, current bids and any reserve are subject to change and may be corrected, revised or withdrawn. Where a lot carries a reserve, the amount is confidential and the lot will not sell below it. Figures here exclude applicable fees, taxes, duties, transport and registration costs.

No offer and no contract

This document is provided for information only. It is not an offer, a valuation, an appraisal, or an invitation to treat, and it forms no part of any contract. Bidding and sale are governed solely by the CollectAirs Terms and Conditions in force at the time of the auction.

Condition and airworthiness

Aircraft are sold as they stand. Descriptions, specifications, hours, dates and maintenance status are supplied by the seller and, while CollectAirs curates and verifies listings, they are not warranted as complete or accurate. Buyers are expected to carry out their own inspection, records review and pre-purchase survey before bidding.

Export, registration and compliance

Deregistration, export, import, customs, tax and re-registration are the buyer's responsibility, as is confirming that the aircraft can be lawfully imported and operated in the intended jurisdiction. Requirements vary by country and can affect both cost and timescale.

Photography and written content

Photographs are supplied by the seller and may have been edited for exposure, colour, straightening or the removal of background distractions, in some cases with AI-assisted tools. Parts of the written description and specification summaries may also have been drafted or edited with AI assistance for clarity and consistency. Such enhancements are made to present the aircraft clearly and are not intended to conceal, add or alter any physical feature, damage or defect. Photographs are illustrative, treat the aircraft itself, and its records, as the only authority on condition.

Seller identity

Seller names are shown in the partially masked form used across the platform. Full counterparty details are exchanged through CollectAirs once an auction concludes.
